# Underfloor Air Terminal (Variable Volume) LMIT3 - CL 

MODEL:

## DESCRIPTION:

LMIT3-CL (Linear Modular Integrated Terminal) is a variable volume diffuser for use in raised floor air systems. The underfloor terminal features 24 gauge ( 0.7 mm ) galvanized steel construction, pre-painted flat black.

The air valve uses time modulation to vary total air supplied to a conditioned space. Air velocity is constant any time the valve is open; the short time duration between open/close cycles produces the effect of contiuous air delivered to the occupied space. It is rated for 24 V ( $18-30 \mathrm{VAC}$ ) operation; one (1) PAP-1 Plug \& Play Cable is included.
The nominal 48" x 7" (1219mm x 178mm) extruded aluminum grille includes a 1 " ( 25 mm ) flange on all sides, and produces mixing air flow at a $15^{\circ}$ deflection. Ten (10) standard grille colors are available; custom colors and finishes can be provided to match architectural design (specify on order).

## FEATURES:

- Drop-in installation from above the raised access floor
- Riveted pre-painted galvanized steel
- Robust extruded aluminum linear grille
- DC synchronized magnetic motor
- Multi-function circuit board for varying control strategies

UNIT SUSPENDED FROM RAISED ACCESS FLOOR PANELS

ALL DIMENSIONS NOMINAL +/- 0.1" (2.5mm)

## SPECIFICATIONS:

Application:
Dimensions:
LxW×H (Nominal)
Grille Rating:
Supply Press. / Temp.: $0.02-0.1$ in. w.c. $(5-25 \mathrm{~Pa}) \mid 40-110^{\circ} \mathrm{F}\left(4-43^{\circ} \mathrm{C}\right)$
Capacity (Nominal Max): 340 cfm @ 0.05 in. w.c. ( $578 \mathrm{~m}^{3} / \mathrm{hr} @ 12.5 \mathrm{~Pa}$ )
Noise Criterion:
Underfloor Cooling | Raised Access Floors 8" (203mm) +
$48 " \times 7 " \times 6.5 "(1219 \mathrm{~mm} \times 178 \mathrm{~mm} \times 165 \mathrm{~mm})$ < NC-17 (All Flow Conditions)

Floor Tile Cut-Out: 48.25" x 7.25" [+.125/-.00] (1226mm x 184mm [+3.175/-.00]) Extruded Aluminum | Conforms to NFPA 90a | $1250 \mathrm{lbs} .(567 \mathrm{Kg})$ Load Strength
